

Timmy's Kite

Flesch-Kincaid: 3.2 | Words: 157

Timmy went with his mother to the store. He saw a colorful kite in the window. His birthday was two weeks away so he asked his mother for the kite. She was worried he had never flown a kite before. Timmy was so excited when she surprised him with the kite. When Timmy got home he opened the kite and looked at the directions. First, he had to put the kite together into a diamond shape. Next, he tied the string with a tight knot to the front of the kite. Last, he added a long blue tail. He was ready to go. Timmy ran to the front yard to fly his new kite. With the first gust of wind, he lifted the kite into the air and let out the string. The kite rose quickly into the sky. The kite pulled against the wind and Timmy watched as it sailed higher and higher into the air.
